

LEMKE CATTLE

12th Annual Bull Sale

Tuesday February 6th 2018

1:00 p.m. at the Ranch

www.lemkecattle.com

Welcome to our Annual Sale!

We're grateful and excited! We're excited for the upturn in the cattle markets, we're excited to be in our new sale facility, but mostly we're excited about the direction of our breeding program. The first sons of Game Breaker, Density and Reputation are in this sale, along with sons of Resource, Full Power, Capitalist, Consensus, Cinch and New Direction.

The average Bull in this sale ranks in the top 25% of the breed for every EPD or Index with unprecedented power and phenotype--the meaning of "BALANCE & EXCEL IN MULTIPLE TRAITS".

We build extra value in our genetics so we continue to help our customers receive extra value in their calves with marketing. We had several customers retain interest and fed out their calves at Darr with excellent results on carcass & gain. If you're a Lemke customer give us a call when its time to sell, we make many calls to buyers on behalf of our customers to earn them premiums for their calves.

New this year! Lemke Cattle will donate 20% of the average price of a sale Bull to The Cattlemen's Ball which will be held near Hebron, NE. All funds go to Cancer Research. We will also donate 20% to the "Beef for Schools" program from the Lawrence-Nelson FFA Alumni Committee in cooperation with the South Central Cattlemen.

Thank you, we appreciate your business!

Guarantee: Buyers of all bulls, selling for \$4,000 or more, injured the first breeding season will have credit at the next sale at the value of the purchase price minus salvage value. Contact Lemke Cattle promptly in this event. The breeding season is defined as the 90 day period following first turnout of a bull. Guarantee applies to bulls in single bull breeding pastures only.

Health: All bulls are on a complete health program. Vaccinated with IBR, BVD Type I and II, P13, BRSV, Pasturella, 7-way, Haemophilus, wormed and poured. All bulls have tested negative BVD.

Fertility Tested: All bulls will have passed a fertility test and examination by Stephen Russell DVM.

Feeding: The bulls are fed a high roughage growing ration so they develop, not get fat. Customer feedback has been that the bulls are holding up very well.

Delivery: Free delivery of bulls in Nebraska and Northern Kansas, or meet at central locations. Transportation of females is the responsibility of the buyer and must be picked up within two days of the sale. We'll be happy to assist with transportation and females will be fed and cared for until picked up.

Free Care: Bulls will be fed and cared for at purchaser's risk until April 1st. Bulls may be fed after April 1st at the cost of \$4.00 per head per day. Any bulls picked up within 3 days of sale will have \$100 deducted from purchase price.

Lunch: A beef meal will be provided sale day.

Announcements: Any announcements made sale day will take precedence over any information printed in the catalog.

Liability & Accidents: Every precaution will be taken to protect the safety and comfort of those attending the sale. All persons attending the sale do so at their own risk and neither the owner or sale staff assume any responsibility or liability, legal, or otherwise for any accidents occurring in or about the premises.

All bulls selling have been tested and are free of genetic defects.

EMBRYO TRANSPLANT CALVES

are born to and raised from a recipient cow, therefore the actual birth and weaning weights are not an accurate representation of the calves performance.

EPD's give a much more accurate picture of their true genetic potential.

SUPPLEMENT SHEETS

with ultrasound data, scrotal measurements, and yearling weights will be available sale day.

Congratulations once again to Miss Addie Russell and her 2017 GRAND CHAMPION Breeding Heifer at the Smith County Fair in Smith Center, Kansas. Addie repeated after winning the 2016 GRAND CHAMPION Breeding Heifer. Both Red Angus heifers born & bred at Lemke Cattle.

Top Dollar Angus Feeder Calf Program

Top Dollar Angus is a genetic-certification and marketing company focused exclusively on the top 25 percent of the industry in carcass and growth Angus and Red Angus-influenced feeder cattle. Top Dollar Angus is a program similar to other popular branded-beef programs, except that Top Dollar Angus does its branding in the feeder cattle and calf market.

Qualified herds must have two or more generations of Angus (Black or Red) genetics with growth and carcass traits objectively ranking in the top 25 percent of the breed based on documented historical sire use. DNA evaluation conducted by Zoetis or GeneSeek is another workable method to qualify. Once your cattle have met the necessary requirements, they will be marketed under the Top Dollar Angus brand and logo, and will be promoted aggressively to a large number of feed yards and buyers. In today's market, Top Dollar Angus cattle are seeing premiums ranging from \$30 to \$70 per head above the average market.

Why the premium? Cattle feeders know that Top Dollar Angus cattle perform better and have higher grid-based carcass rewards compared to other cattle. This puts more dollars per head into the cattle feeder's pocket, which can be passed back to the producer in the form of premiums paid above market price.

Top Dollar Angus helps take the guess work and surprises out of growing and feeding cattle. Feed yards are tired of unpredictable performance and wide-ranging profitability results from group to group on cattle they purchase. Cattle often look the same and have the same colored hides, but are very different genetically. That's why the genetic certification of high-end Angus and Red Angus feeder cattle is here! The industry must differentiate the best Angus and Red Angus genetics from average cattle, and that's what Top Dollar Angus will do for you!

If you have consistently invested in high-performance Angus or Red Angus genetics, Top Dollar Angus will make your cattle stand out from the pack and get you the premiums you deserve. No matter how you market your cattle, our goal is to create more demand and higher prices for your calves.
